Blue Skye Stables Teaching Commitment **OUR COMMITMENT**

- We will freely share our knowledge with you in an effort to help you to realize your full potential as a horseman.
- We will advise you and evaluate your progress from a place of integrity, objectivity, and compassion.
- We will be available to you for questions, advice, or guidance beyond the time constraints of your lessons or training sessions.
- We will be pleased to provide trailering and training support at various shows and outings. Please understand that, while we consider these activities an integral part of the training process, our primary focus is on the evolution of sensitive partnering between you and your horse.
- We are committed to supporting your dedication, your development, and your equestrian evolution.
